## PUBLICATIONS, MAPS, AND DATA SERVICES

*Available from the*

*National Geophysical Data Center  
NOAA, Code E/GC4, Dept. LUC  
325 Broadway  
Boulder, CO 80303 USA*

This brochure provides information about some of the many data products and services now available from the National Geophysical Data Center. It includes titles of publications, maps, data announcements, and geologic hazards slide sets available in Solid Earth Geophysics (including seismology, geomagnetism, gravity, geothermics, tsunamis, volcanoes) and in Marine Geology and Geophysics. Because some titles describe data that are available in several disciplines, many of the titles are repeated under different sections.

To order, please write the item number or title of each product you want on the Order Form enclosed and return it to this office. All non-USA orders must include a \$10 handling fee.

U.S. Department of Commerce regulations require prepayment on all non-Federal orders, but do not send cash. Only checks or money orders made payable to *DOC/NOAA/NGDC* will be accepted as payment. All non-USA orders must be in USA dollars and drawn on a USA bank. Orders also may be charged to an American Express card, MasterCard, or Visa card by including account number, expiration date, telephone number, and your signature on the Order Form enclosed.

Please direct telephone inquiries to:
